Experience

Full-Stack Developer & Content Creator

guovach.com

07/2021 - Current

- In this multifaceted role, I combined my programming expertise as a Full Stack Software Engineer with my creative skills as a Media Specialist. I developed and maintained web applications while delivering high-impact multimedia content, including photo and video editing and logo design. With a strong command of Python and JavaScript, I provided data-driven insights on customer spending patterns and advised clients on website optimization strategies. Proficient in Adobe Creative Suite, I consistently delivered high-quality content, meeting clients' objectives while managing multiple short-term contracts.
